

“IT’S YOUR CHOICE BABY”

It’s your choice baby (x2)

Alright, STOP!
You get to school a little early
You’re wanting to play with your good friend Curly
You notice that he’s playing already with someone
You stroll on over looking to have fun
You say, “Can I play”
He says, “No way!”
People around you start to look your way
Both of you start to raise your voices
STOP! Remember Kelso’s Choices!

(Chorus)

You can wait and cool off,
You can walk away,
Go to another game and try again the next day,
Tell them to stop,
Or make a deal,
Walk away,
Or tell them how you feel,
Apologize,
Share your concerns,
Ignore them,
Or you can share and take turns

If there is a problem, you can solve it
Check out the wheel while Kelso revolves it

It’s your choice baby (x4)

Well the bell rings, so you head inside
You put your coat on the hanger, and take your
planner inside
Walk to your desk, high-five a friend
Nod to the teacher, and think about your weekend
Things are going great until you feel a shove
It’s happened before, it’s something you’re getting
tired of
You look at each other and raise your voices...
STOP! Remember Kelso’s Choices!

(Chorus)

Whatever you do, before you make some noise
Remember: It's your choice!

Ok, here comes recess, studying ceases
You’re watching out for Sylvia because she teases
You try to stay away, so you go to the rocks
But she finds you there and makes fun of your socks
You feel yourself getting agitated
It’s a situation that you’ve always hated
You look at each other and raise your voices
STOP! Remember Kelso’s Choices!

(Chorus)

Whatever you do, before you tell a teacher
Kelso, a legendary creature

It’s your choice baby (x4)

Back into class, it's time for science
Talking 'bout watts and your kitchen appliance
Somebody takes the book you need
They go to their desk and start to read
You go over there, about to take it back
Then you stop, and take another plan of attack
You decide, before you raise your voices to
STOP! And think about Kelso's Choices!

(Chorus)

If there is a problem, you can solve it
Check out the wheel while Kelso revolves it

It’s your choice baby (x4)

Well that's the end, there isn't any more
Just keep in mind we're responsible for each other
And feelings are real
Like a banana in a banana peel
So keep Kelso in mind, we implore
Use them at school or at the grocery store
At home, when you're sensing a problem
Think of the choices as we revolve them

(Chorus)

Whatever you do, before you make some noise
Remember: It's your choice

It’s your choice baby (x6)
