

COUNSELOR ACTIVITY WORKBOOK INTRODUCTION

The Counselor Activities Workbook activities, games and crafts were created to augment the Core Lessons and the Extension Lessons in the Kelso's Choice: Conflict Management core curriculum Leader's Guide. The content included in this workbook is intended to be presented after the Core Lessons and Extension Lessons from the core Kelso's Choice curriculum have been taught. The enclosed activities and crafts further develop and refine the Kelso's Choice concepts and philosophy and do not constitute a curriculum. They are designed to be engaging and developmentally appropriate, and to further reinforce the message that all children are strong enough and smart enough to solve small problems.

What's in the Kelso's Choice: Counselor Activities Workbook?

The activities and crafts included in this workbook can be used in small group counseling sessions, included in the school newsletter or can be sent home with students to use with their parents or guardians.

Parent Letters and Reward Charts for grades K-3 and 4-5 are included in the Reproducible Masters section of this workbook. Send these letters and reward charts home with students or include in newsletters to encourage the use of conflict management at home.

Reproducible Masters can be found at the end of this book, plus there are a number of reproducible handouts and craft patterns featured throughout this workbook. These materials may either be photocopied directly from the book or printed from the CD attached to the back cover.

Note: Although the entire book is included on the enclosed CD, content can be reproduced for student use only. Content cannot be reproduced or distributed to facilitate curriculum into classroom, school or environment other than the original intended use.
